---	---	--

Service Agreement and Definitions

SKILLS' Inc's eWaste Alternatives program ('EWA') collected these 'Materials' from your organization ('Generator') for reuse and recycling under these terms or by the terms of a superceding agreement which represents the whole understanding between the Generator and EWA (the 'Parties').

About this Document

This is NOT an Invoice, it is a comprehensive report that includes material, agreement, disposition and service details on a per transaction/collection event basis. The Generator agrees to pay for these services in full within 30 days of receipt of the invoice. Keep this document on file for three years (regulatory compliance) and share it with asset management/accounting teams for easy IT asset disposition and removal from inventory.

Optional Services

The following optional services have been requested for the processing of these materials:
The results of optional recording will appear in the Material lists of this report.

Clear Title, Transfer of Ownership and Warranty

Generator does hereby donate, sell, assign, convey, transfer and deliver to SKILLS all of Generators right, title and interest in the Materials for SKILLS' own use and enjoyment without limitation or restriction. The Generator transferred ownership to EWA free of lien and with a clear title. EWA agrees to accept these Materials AS IS, WHERE IS and WITH ALL FAULTS - without any warranty, expressed or implied, including without limitation, any warranty of: merchantability, fitness for a particular purpose or material and workmanship defect.

Information Security, Data Destruction, Declassification Services and Confidentiality

These Materials are managed within a secure chain of custody and are not scrap recycled or reused until declassified to this standard: potentially sensitive used media (thermal transfer rolls, DVD's, non funtional/non reusable hard drives) are physically destroyed; reusable hard disk drives are sanitized using NIST 800-88 or NISPOM 5220.22M methods. EWA and the Generator agree to keep each others' business procedures, service materials, fees and other proprietary discussions or shared information confidential between the parties and agree to limit the use of such information to review of service performance, regulatory compliance and for purposes that aid or improve their working relationship.

Regulatory and Environmental Assurances

These materials were received, documented, processed, re-purposed and recycled using procedures compliant with Maine's Universal/Hazardous Waste Management Rules (38 M.R.S.A. Section 1301 et. seq., the Maine Hazardous Waste, Septage & Solid Waste Management Act) specifically within the requirements set in EWA's Electronics De-manufacturing and Recycling license. Management of these Materials shall comply with all applicable state, local and federal laws and regulations relating to Environmental Health and Safety, Maine Universal Waste Regulations, the Occupational Safety and Health Act and any applicable standards, rules and regulations promulgated under such Acts.

Certificate of Recycling (COR)

SKILLS' Inc certifies that the hazardous components of the universal waste referenced in the "Recycled (Scrap) Materials List" section of this report were received and processed by the 'eWaste Alternatives Technology Recovery Program' - including any mercury and lead which have been recycled, i.e. used, reused or reclaimed as defined by the Department of Environmental Protection (State of Maine) Chapter 856 Section 11A(5) of the 'Hazardous Waste Management Rules'.

Indemnification

EWA agrees to indemnify, defend and hold Generator harmless for any and all claims and liabilities to all persons for injury, sickness, death or property damage caused by EWA or its assigns or by the Materials' electronic components that are recorded in this document after title transferred to EWA and Generator likewise guarantees the Materials are free of all contaminants NOT normally associated with electronics/universal wastes such as radioactivity, blood-borne pathogens and liquid or airborne chemicals. Generator agrees to hold EWA harmless for claims associated with Material ownership or clear title, loss of Information or all other claims founded on the disposition of Materials transferred from Generator to EWA.

Force Majeur

Neither party shall be liable for any loss or damage due to failure to perform or delay in performance due to any contingency beyond its reasonable control, including without limitation acts of God, act or omission of any civil or military authority, fire, tempest, flood, labor dispute, embargo, war, riot, compliance with any regulation or directive of any national, state or local government, or any department or agency thereof, or any other cause which by the excersise of reasonable diligence such part would be unable to overcome.

Modifications

All Materials described in this document are subject to the terms of this agreement and there can be no modification of, amendment or waiver to these terms except by the express written consent of both the Generator and EWA. Any/all conflicts between the terms of this agreement and the services or procedures performed by EWA or the Generator shall not constitute a modification of these terms.

Generator Approved Collection, Certified Receipt, Agreement to Pay and Processing under these Terms

In signing, I certify that I am authorized to represent the 'Generator' and its interests, and approve of EWAs collection of the materials by these terms.

THIS IS NOT AN INVOICE. This includes all fees for the collection and processing of the materials described in this report. This report details all the compliance, asset management, disposal, data security and services provided to your organization. An invoice will follow as a separate document.

Green Report and Service Notes

Collected and Processed by:	SKILLS Inc eWaste Alternatives Program 60 Industrial Park Road Waterville, Maine 04901 (207) 872-2615 EPA ID: MER000506055	From Generator:	[REDACTED]	Collection Date:	2018-08-29
		EPA/DEP Site ID:	[REDACTED]	Tracking Code:	[REDACTED]

GREEN REPORT

Total Materials in this report:	145	Units Weighing	2834.5 lbs
Portion recovered for reuse:	89	Units Weighing	1346.5 lbs
Your Reuse Rate (percentage):	61.38 % by quantity		47.50 % by weight
Processing Fee Per Pound:	\$0.06	Total Fee Per Pound:	\$0.20

*The objective high standard reuse rate for commercial generators is 32% by quantity and 25% by weight. Controllable factors that affect these values are IT deployment terms (lifecycle from purchase to disposal), surplus asset handling (damage that occurs from handling and storage) and asset completeness (notebooks with adapters, caddys, hard drives, RAM included with computers etc).

NOTES TO THE DONOR/GENERATOR

Thank you for Supporting this Important Social and Environmental Initiative!
